

	Title
1	System method and user interface for active reading of electronic content
2	Automatic web page thumbnail generation
3	Graphic user interface display method
4	Electronic document manager
5	Graphical search engine visual index
6	Displaying electronic documents with substitute fonts
7	System and method for displaying a graphically enhanced view of a region of a document image in which the enhanced view is correlated with text derived from the document image
8	Method and apparatus for generating and modifying multiple instances of element of a web site
9	Method and system for displaying original documents and translations thereof
10	Three dimensional data display method utilizing view point tracing and reduced document images
11	Apparatus with a display magnification changing function of annotation
12	Multi-page document viewer having a focus image and recursively nested images of varying resolutions less than the resolution of the focus image
13	Floor controller for real-time control of music signal processing, mixing, video and lighting
14	Solid state flight deck modules and components thereof
15	Method for remotely controlling a peripheral device in a videoconferencing system
16	Reading aid for electronic text and displays
17	Graphical user interface
18	Integrated network for monitoring remote objects
19	Convolution filtering of similarity data for visual display of enhanced image
20	Method of making an overlay mask and a printing plate therefrom
21	Programmable computer graphic objects

	Inventor	Document ID
1	DeMello; Marco A. et al.	US 6714214 B1
2	Brown; Michael Wayne et al.	US 6356908 B1

21	Gever; Eval et al.	US 6331861 B1

	Title
22	Color overlay of scanned and reference images for display
23	Layer enhancements in digital illustration system
24	Computer display having selective area magnification
25	Orthogonal magnifier within a computer system display
26	Speed-dependent automatic zooming interface
27	Method, system, and program for magnifying content downloaded from a server over a network
28	Method and apparatus for displaying miniaturized graphical representations of documents for alternative viewing selection
29	Direct manipulation of displayed content
30	Hand-held with auto-zoom for graphical display of Web page
31	View navigation and magnification of a hand-held device with a display
32	Pixel zoom system and method for a computer graphics system
33	Computer screen image magnification system and method
34	Method and apparatus for variable minification of an image
35	Image processing with real time zoom logic
36	Variable magnification copier
